Deliverable No.	D6.4	
Deliverable Title	Intermediate Dissemination and Exploitation Plan	
Deliverable Date	2018-03-31	
Deliverable Type	REPORT	
Dissemination level	Confidential – member only (CO)	
Written By	Cor van der Zweep (UNR) Ilse Claassen (UNR) WP Leaders provided input	2018-03-20 2018-03-22 2018-03-31
Checked by	Simon Edwards (RIC)	2018-04-09
Approved by	Simon Edwards (RIC) - Coordinator	2018-04-09

---

## Summary

The aim of the intermediate Dissemination Plan is to present the planned actions for communication, dissemination and exploitation of the results of the PaREGEEn project. Furthermore, the achievements of the project consortium to date, in terms of disseminating the project vision, ideas and results, are summarised in this document.

The overall aim of the dissemination activities within the PaREGEEn project is to maximise the communication of project results and to express them in terms that are readily understandable, not only to experts in the field of low emission light duty powertrains, but also to stakeholders at governments, industry and suppliers, in order to accelerate the implementation of the research findings. The secondary aim is to promote the project findings through presentations at workshops, scientific publications etc. Furthermore, dissemination involves preparing information for the project website and facilitating the technology transfer of the research into products and processes.

The first plans for dissemination were already initiated in the proposal phase, updated in the Grant Preparation Phase and the first four months of the project, and will be continuously updated throughout the project lifetime. This document is a living (running) document and will be updated on a regular basis, discussed each month in the Executive Board meetings of the project, and every nine months in the General Assembly meetings. Next to this, in its role as dissemination manager, Uniresearch will track and trace the dissemination activities closely.

In addition to the dissemination aspects, this document now contains an initial exploitation plan. The basis for the Exploitation plan is the Section 2.2 from the Description of Action, Part B.

## Appendix A Acknowledgement

The authors would like to thank the partners in the project for their valuable comments on previous drafts and for performing the review.

Project partners:

#	Partner	Partner Full Name
1	RIC	RICARDO UK LIMITED
2	DAI	DAIMLER AG
3	JLR	JAGUAR LAND ROVER LIMITED
4	BOSCH	ROBERT BOSCH GMBH
5	FEV	FEV EUROPE GMBH
6	JM	JOHNSON MATTHEY PLC
7	HON	HONEYWELL, SPOL. S.R.O
8	JRC	JOINT RESEARCH CENTRE – EUROPEAN COMMISSION
9	UNR	UNIRESEARCH BV
10	IDIADA	IDIADA AUTOMOTIVE TECHNOLOGY SA
11	SIEMENS	SIEMENS INDUSTRY SOFTWARE SAS
12	LOGE	LUND COMBUSTION ENGINEERING LOGE AB
13	ETH	EIDGENOESSISCHE TECHNISCHE HOCHSCHULE ZUERICH
14	UDE	UNIVERSITAET DUISBURG-ESSEN
15	RWTH	RWTH AACHEN UNIVERSITY
16	UFI	UFI FILTERS SPA
17	UOB	UNIVERSITY OF BRIGHTON

This project has received funding from the European Union's Horizon2020 research and innovation programme under Grant Agreement no. 723954.
